

webOS Design System - Quick Reference Card

Print this out and keep it at your desk! 📌

Most Used Colors

```
// Backgrounds
bg-primary      // #e8e8e8 - Main app background
bg-surface      // #ffffff - Cards, panels
bg-hover        // #fafafa - Hover states

// Text
text-primary    // #000000 - Primary text
text-secondary  // #666666 - Secondary text
text-tertiary   // #999999 - Hints, labels

// Borders
border-light    // #e0e0e0 - Default borders
border-focus    // #4a90e2 - Focus states

// Accents
bg-accent-blue  // #4a90e2 - Links, actions
bg-success      // #5cb85c - Success
bg-error        // #d9534f - Error
```

Spacing (4px Grid)

```
space-xs      // 4px
space-sm      // 8px
space-md      // 12px
space-base    // 16px ★ Default
space-lg      // 24px
space-xl      // 32px
space-2xl     // 48px
```

Usage:

```
p-4          // Padding: 16px
gap-lg       // Gap: 24px
m-xl         // Margin: 32px
```

Typography

```
// Sizes
text-xs      // 11px
text-sm      // 13px
text-base    // 14px ★ Default
text-lg      // 18px
text-xl      // 20px
text-2xl     // 24px

// Weights
font-light   // 300 ★ Default (use this!)
font-normal  // 400 - For emphasis
font-medium  // 500 - Rare

// Family
font-sans    // Helvetica Neue
```

○ Component Patterns

Button (Primary)

```
<button className="h-12 px-4 bg-accent-blue text-white rounded-md
                  hover:bg-accent-blue-dark transition-fast">
```

Button (Secondary)

```
<button className="h-12 px-4 bg-surface text-primary border border-light
                  rounded-md hover:bg-hover transition-fast">
```

Card

```
<div className="bg-surface rounded-lg shadow-card p-4 border border-lightest">
```

Input

```
<input className="h-12 px-3 bg-surface border border-light rounded-md
                 focus:border-focus text-base" />
```

Glass Card

```
<div className="bg-glass-white-80 backdrop-blur-lg rounded-2xl p-6">
```

Golden Rules

1. Use semantic tokens → `bg-primary` not `bg-neutral-300`

2. **Use light fonts** → `font-light` by default
3. **Follow 4px grid** → `p-4` not `p-[17px]`
4. **Minimal color** → Neutrals first, accent sparingly
5. **Pure grays** → No blue tints!

Don't Do This

```
❌ bg-white text-black
❌ font-bold
❌ p-[17px]
❌ bg-blue-500
❌ style={{ backgroundColor: '#e8e8e8' }}
```

Do This Instead

```
✅ bg-surface text-primary
✅ font-light
✅ p-4
✅ bg-accent-blue
✅ className="bg-primary"
```

Dark Mode

All tokens automatically invert:

```
// Same code works in light and dark mode
<div className="bg-surface text-primary">
```
